

## São Paulo School of Advanced Science on Scenarios and Modelling on Biodiversity and Ecosystem Services to Support Human Well-Being

### Rafael Borges

Universidade Federal do Pará, research fellow at the Instituto Tecnológico Vale in Belém Pará.  
rcabral-san@gmail.com

I graduated in Biological Sciences at the Universidade Federal do Maranhão (2011) and achieved a Master's Degree in Zoology from the Universidade Federal do Pará / Museu Paraense Emílio Goeldi (2017). I studied stingless bees' ecology, behavior and morphometrics, and have experience with stingless beekeeping and rescue at deforestation zones. On my master's degree, I worked with social wasps' taxonomy, ecology and evolution. In my PhD my focus is in line with ecosystem functioning, conservation and restoration ecology at the Eastern portion of the Brazilian Amazon. I am also interested in pollination services provision and valuation, and bees' vulnerability under climate change.
