## **Leonardo Lima Bergamini**

Reserva Ecológica do IBGE, Distrito Federal

leonardo.bergamini@ibge.gov.br; llbergamini@gmail.com

BSc in Biological Sciences by Universidade Federal de Goiás (2010), MSc in Ecology and Evolution by Universidade Federal de Goiás (2013), PhD in Ecology and Evolution by Universidade Federal de Goiás (2017). I am mainly interested in the ecology and evolution of insect-plant interactions, including herbivory, wild and cultivated plant species pollination, ecophylogenetics of interactions and responses of biodiversity to human impacts, such as habitat modification, climate change and exotic species introduction. More recently, I have been working in the formulation of environmental statistics and policy-relevant indicators and helping in the development of Experimental Ecosystem Accounting in Brazil.
