

São Paulo School of Advanced Science on Scenarios and Modelling on Biodiversity and Ecosystem Services to Support Human Well-Being

Taciana Figueiredo Gomes

Center of Nuclear Energy in Agriculture/ University of São Paulo [CENA / USP]
tgomes@cena.usp.br

Taciana is graduated in environmental technology by the University of Campinas [UNICAMP] and her masters and doctorate were in Science (Chemistry in agriculture and environment) at CENA/USP. She currently works in a thematic project granted by FAPESP, in which one of the aims is to investigate soil erosion and conservation in pasture fields that were recently converted into sugarcane and intensified pasture areas, in the State of São Paulo.

The main research interests are the development of scenarios and modeling for prediction and conservation, looking for a sustainable use of soil and ecosystem services.
